Figure 1 consists of three vertically stacked plots sharing a common x-axis representing station numbers from 187 to 325. The top plot, labeled 'GEOPHONE STATIC', shows a curve fluctuating between approximately 100 and 220 meters. The middle plot, labeled 'SHOT STATIC', shows a curve fluctuating between 0 and 80 meters. The bottom plot, also labeled 'GEOPHONE STATIC', shows data points with error bars and a fitted curve fluctuating between -12 and 12 meters. A vertical dashed line is drawn at station 275 in all three plots.
